DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 10, 15, and 17, as well as their dependent claims, are found to be allowable because the prior art of record neither teaches nor reasonably suggests the recitations found therein including a specific composite yarn construction, comprising at least one single yarn having a sheath/core of cut resistant fibers and an inorganic fiber, and a second at least one single yarn comprising cut resistant staple fiber and at least one continuous elastomeric filament. The specific recitation as claimed provides a unique cut resistant structure which is not obviously found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Zhu et al (2004/0065072) teaches what is well known in the cut resistant yarn art.
